Emerald-green, someone his size, and he absolutely must obtain food for himself and for Old Yeller, who is depending on. The two men walk westward from the back of the semi? in the general direction of the automobile. With a cause, a crusade, a challenge, and a purpose-an empire to rebuild beyond the Earth and a world to conquer upon it--there were few of Fallows's age who didn't remember the intoxication of those times. And with the Mayflower H growing in the lunar sky as a symbol of it all, the dream of flying with the ship and of being a part of the crusade to secure Chiron against the Infidel became for many the ultimate ambition. The lessons of discipline and self-sacrifice that had been learned during the Lean Years served to

bring the Mayflower H to completion two years ahead of its nearest rival, and so it came ' about that Bernard Fallows at the age of twenty-eight had manfully shaken his father's hand and kissed his tearful mother farewell before being blasted upward from a shuttle base in Arizona to join the lunar transporter that would bear him on the first stage of his crusade to carry the American New Order to the stars..Stern looked back at her and smiled humorlessly. "Hardly what I would call manipulating. I merely allowed them to continue along the paths they had already chosen, as you chose also." "I've kept copies in case anything happens to yours." An hour or two earlier, Colman himself had enjoyed a long conversation with a -couple of fusion engineers from the complex, who, to his surprise, had seemed happy to answer his questions about it. They had even offered him a quick tour. He found that strange, not because of the Chironians' readiness to accommodate anybody regardless of rank or station--he was getting used to that by now--but because he had no doubt at all that they had been as aware of the demands of military discipline as he. Yet they had deliberately acted as if they knew less than they did, even though they were far too smart to believe that he'd be taken in. The Chironians did it all the time. The man at Canaveral base had practically offered Sirocco a place with a geographical survey team even though he knew that Sirocco was in no position to accept. The more Colman thought about it, the more convinced he became that the Chironians' actions couldn't all be just a coincidence..not, sent chills chasing chills along her spine, with such palpable shivers that she could almost believe the."Of course they are. He's tried to play it straight, it's all sweeping him way out of his depth. Anyhow, what would he have to gain? All he wants to do is to be put out to pasture; he's only got a few days left. Ramisson obviously wouldn't be involved in something like that, and the same goes for Lechat. But as for the rest, if you ask me, they're all crazy. It could be any of them or all of them. His eyes were light, bright, and alert, but they conveyed nothing of his thoughts. "How did it happen?" Colman murmured in a low voice, moving a pace nearer..
